

DISCOVERT DPLF is a cleaning solvent for solvent-based paint application equipment used in aerospace paint shops. It doesn't damage surfaces.

DISCOVERT DPLF is a non-toxic, environmentally responsible alternative to chlorinated or hydrocarbon solvents that can be harmful to the environment and operators.

Advantages

- Readily biodegradable
- Halogen free
- Low VOC
- CMR free
- Not subject to safety labelling
- High flash point
- Low evaporation rate prolongs contact time
- Inert on metals

USES

- Cleaning paint circulation systems
- Cleaning paint application equipment (spray guns, brackets, covers, etc.)
- Stripping PR resins and adhesives

DIRECTIONS FOR USE

- Ready to use
- Application methods:
 - paint circulation systems
 - brush
 - cloth
 - in a hot or cold bath (with or without ultrasound). Heating is not required but can boost the effectiveness of the stripping process and reduce the application time (recommended temperature between 40 and 50°C)

Note: the necessary contact time for optimal removal will depend on the type and thickness of the coating.

TECHNICAL CHARACTERISTICS

Appearance	Liquid
Specific gravity	1.05
Colour	Colourless
Odour	Distinctive
Solubility	Non-water-miscible
Flash point	>80°C (AFNOR closed cup)

PRECAUTIONS FOR USE AND STORAGE

Storage temperature: between 5 and 25°C for maximum lifespan.

Shelf life: 2 years (sealed packaging).

Always perform a surface compatibility test prior to use.
