

## Approvals and conformities

EADS CASA	Z24941
PRATT & WHITNEY	PMC9016
ROLLS-ROYCE	OMat 1/257AK

- **Complies with Specifications / Norms: BMS 15-5 F, AMS 3819 MC Donnell Douglas DMS 1820 E**

- Reusable canister reduces waste.
- Dispensed through a center-pull canister.

- Active product: **SATWIPES - Cleaning solvent**

- Complies with the Decree of 8 September 1999 concerning processes and products used for cleaning materials and objects liable to be in contact with foodstuffs and beverages intended for human and/or animal consumption.

Description	Size (cm)	Quantity per bag	Quantity per case
Perforated rolls	15 x 11,5	200	10
Perforated rolls	15 x 23	100	10
Perforated rolls	28 x 23	75	8
Perforated rolls	30 x 32	350	1

## TECHNICAL CHARACTERISTICS

Composition ..... isopropyl alcohol  
Wipe construction ..... nonwoven, approved in aerospace and automotive industries  
Odor ..... pleasant  
Wipe fabric ..... 100% rayon  
Flash point ..... 14°C  
Specific gravity ..... 0.8

## BENEFITS OF PRESATURATED WIPES

The product is ready to use in pre-saturated wipes, which avoids handling and storage of opened containers of flammable solvents. The advantages of pre-saturated wipes are both environmental and safety in nature.

- In the case of an over saturated cloth much of the solvent evaporates without touching the surface.

- Whereas the quantity of solvent contained in each pre-saturated wipe is adjusted so that almost all the liquid acts effectively on the surface to be cleaned. Therefore the VOCs targeted by the European regulations are substantially reduced; on average by more than 65%.
- Thanks to the low quantity of solvent, after use the wipes are dry, therefore the treatment cost of waste is reduced if compared with the cost of disposing of solvent saturated cloths. Moreover the weight of wipes per treated surface area is generally 5 to 10 times lower than traditional wipes.
- There are three benefits for users:
  - A safer working environment because of the huge reduction in solvent quantity in the atmosphere.
  - No risk of accidental spillage compared to full containers of flammable liquids (fire risk).
  - Pre-saturated wipes are very easy to use, handle and store, compared to cloths and solvent in containers.
- The solvent is absolutely neutral and harmless on all substrates (glass, plastic materials, aluminium, chromium, stainless steels, non metallic materials, paints, etc.)
- The product instantaneously dissolves the greasy binders of soils deposited on the surfaces.

## **PRECAUTIONS FOR USE AND STORAGE**

---

For more information regarding the danger of the product, please consult the product safety data sheet according to local regulation.

For professional use only.

**This technical data sheet replaces and cancels the previous one.**
