

Plastic bucket with a centre-pull for use with SOCOSAT E, SOCOSAT L, SOCOSAT 15233, SOCOSAT I80, SOCOSAT 16400 and SATWIPES C86 pre-saturated wipes, which are available with a wide range of pre-saturation solutions.

Advantages:

- Waterproof packaging to avoid solvent evaporation
- Recyclable*
- Reusable
- Reduces the quantity of waste generated
- Reduces disposal costs
- Reduces environmental impact
- Supports efficient use of wipes
- Helps to control consumption
- Easy to use and store in workshops
- Plastic handle makes it easy to carry

**in compliance with content and local disposal regulations.*

Specifications	Bucket
Material	HDPE & HDPE/PP (lid) + EPDM (seal)
Colour	White / blue
Diameter (overall)	240 mm (193 mm on the bottom)
Height (overall)	216 mm

BENEFITS OF PRESATURATED WIPES

The system of pre-saturated wipes provides **economic, environmental and safety advantages** for users compared to the method of using loose solvent with cloths. It helps to:

- Standardise surface cleaning and preparation operations
- Improve quality and production line performance
- Reduce product consumption
- Reduce waste: for the same surface, the volume of wipes used is 5 to 10 times less than the volume of cloths and loose liquids
- Reduce VOCs (Volatile Organic Compounds) by 65% (on average, as targeted by European Legislation)
- Improve worker safety:
 - Drastically reduces the quantity of solvent released into the atmosphere
 - No risk of slips, falls, or fires from accidental spillage of loose, flammable liquids
- Pre-saturated wipes are easy to use, handle and store in comparison to cloths and liquid solvent drums
