### USES

**For surface preparation prior to painting and bonding.**

## **TECHNICAL CHARACTERISTICS**

---

Wipe construction .....	non-woven
Wipe fabric .....	100% viscose
Weight .....	50 gr/m <sup>2</sup>

## **BENEFITS OF PRESATURATED WIPES**

---

The pre-saturated wipe system provides **economical, environmental and safety advantages** for users compared to the method of using bulk liquid solvent and cloth. It helps to:

- Standardise cleaning and preparation operations
- Improve quality and production line performance
- Reduce the quantity of product consumed
- Reduce waste: for the same surface, the volume of wipes used is 5 to 10 times less than the volume of traditional cloths
- Reduce VOCs (Volatile Organic Compounds) by 65% on average as targeted by the European Legislation
- Improve users' safety:
  - Drastically reduces the quantity of solvent released into the atmosphere
  - No risk of accidental spillage of drums full of flammable liquids (fire hazard)
  - Pre-saturated wipes are easy to use, handle and store compared to cloths and solvent drums

## **PRECAUTIONS FOR USE AND STORAGE**
