FAURECIA CLEAN MOBILITY

SOCOSOLV I8275 is a solvent composition with a controlled volatility, free from halogenated solvents, for cleaning polyester resins for tools and equipment.

It is also an excellent degreaser before application of water-based or solvent-based coatings, paints, adhesives or sealants.

- Highly efficient for the cleaning of resins and gel-coats.
- Excellent for cleaning tools of resins and gel-coats.
- Lower VOC emissions compared to traditional solvents such as acetone, MEK or toluene for instance.
- Safety: flash point: 33°C

USES

- Leisure boat industry:
Cleaning of polyester resin application equipment (brushes, rollers, guns, etc...)
- Surface coating industries:
Cleaning-preparation of surfaces, cleaning of paint and sealant application materials.

DIRECTIONS FOR USE

SOCOSOLV I8275 can be used pure and without dilution at ambient temperature:

- by brushing or swabbing (wipes),
- by dipping.

TECHNICAL CHARACTERISTICS

Appearance clear liquid
Specific gravity (at 20°C) 0.93
Flammability point (ISO 2592) 33°C
Evaporation rate (NFT 30301) (n-Butyl acetate=1) 0.5

Halogenated hydrocarbon content none

PRECAUTIONS FOR USE AND STORAGE

Wearing suitable safety gloves is recommended because the strong degreasing action of SOCOSOLV I8275 can defat the skin. Avoid breathing or swallowing the product as well as contact with eyes by wearing suitable eye protection. In case of contact with skin or eyes, rinse immediately with plenty of water. When working continuously, it is advised to extract vapours from the workplace.

SOCOSOV I8275 must be used and stored far away from flames and heat sources, in well-ventilated premises. The product is to be kept in closed original containers and under shelter until use.

For more information regarding the danger of the product, please consult the product safety data sheet according to local regulation.
